PERRY NETWORK BIBLIOGRAPHY

I need your help in keeping the Bibliography current and accurate, so please let me know of any additions/revisions you have (contact info, including email address, is listed below)...

If you have any suggestions about ways to improve the bibliographic service of the **Network**, please let me know. Also, as always:

- Please let me know of any errors you spot in the bibliography.
- If you have written or know of other items that reference the Perry Scheme, please tell me, and send a copy if possible.
- If you can provide a copy of a listed item not preceded by an order number or @, please do so.
- Items preceded by a @ are not available from the **Network** library for various reasons--they are books, available from the publishers, or theses, which can be ordered from University Microfilms, or I don't currently have permission to reproduce the work.
- **If you are the author of a non-thesis item, other than a book, that has no order number, and you're willing to give me written permission to distribute it, please send it to me as soon as you can. If you'd like me to keep you informed of who has ordered copies, please indicate so in your permission note.**
- I would like to concentrate our services on material not easily accessible by other means. So if you have unpublished material related to the Perry scheme that you would be willing to share with the **Network**, please send it to me for review.
- Once again, special thanks are due to all of you who have graciously provided references and copies to the **Network**; we are a collegial community that depends on cooperation and interdependence to be most useful to all of our members.
